- Ensures that all workplace safety rules are always adhered to;
- Responds to general electrical maintenance calls on a timely basis;
- Provides a report on the nature of the problem and the corrective action taken;
- Where necessary, order required parts/supply materials list for job responsibility;
- Operates and uses the Computer Maintenance Management Software (CMMS);
- Advises work control of the status of each maintenance call;
- Provide regular updates to the Operations Center;
- Work collaboratively with the Airside Specialist.

#### **QUALIFICATIONS:**

- High School Diploma or Associate degree in Electrical Power is preferred
- Single phase license or successfully completed of the single-phase license exam
- Knowledge of three phase electrical theory and work is a plus
- 5-8 years' experience in a hand on multi-functional maintenance environment

#### **JOB COMPETENCIES**

- Demonstrated ability to meet targets and deadlines
- Proven ability to take on a leadership role when necessary
- Proven ability to work in a team environment
- Ability to read electrical schematic
- Ability to troubleshoot complex wiring circuits
- Ability to work shift from 12am to 8am four days per week

Resumes with certificates should be forwarded via email to **people @nas.bs** on or before **March 19, 2019**. Only short-listed candidates will be contacted.
